

CAREER AT THE MARKET LEADER FOR ULTRASONIC WELDING TECHNOLOGY

At Herrmann Ultrasonics, we believe that a strong team has led to our position as the market leader. As we continue to grow, new employment opportunities transpire. We take pride in the education and professional growth of our employees. Take on a versatile and hands-on role both in the classroom and professional setting as our Advanced Manufacturing Technician - ICATT Apprentice.

Advance Manufacturing Technician, ICATT Apprentice

Herrmann Ultrasonics is a very successful and fast growing company within the Herrmann Group. Well known Fortune 500 companies turn to Herrmann Ultrasonics for application and project consulting based on our technology advancements and decades of experience. We pride ourselves on being not only an equipment provider, but also a solution specialist in the field of ultrasonic welding. The global Herrmann Academy will ensure your continuous education.

We're a family owned company that invests heavily in both its technology and its people. Join a company that recognizes and rewards top performers.

Benefits:

We offer a competitive compensation package including bonus potential.

401(k), holidays, paid vacation, health, life, dental and disability insurance are among the benefits offered.

Job Description:

We offer a state of the art apprenticeship, as part of the ICATT Apprenticeship Program, which ensures that you gain practical skills as well as academic knowledge so you are prepared to start your career in manufacturing. Besides being paid during your training at our facility, we also cover the costs for you to attend college. Upon completion of the program you will have an Associate's Degree as well as national and international credentials. We also offer a 2-year employment guarantee for apprentices who successfully complete the program.

Learn Technology Topics as the Advance Manufacturing Technician, ICATT Apprentice:

- Set up, troubleshoot and repair mechanics, pneumatics and hydraulics, incl. reading technical diagrams and schematics
- Understand and repair motors and drives
- Choose or develop correct test procedures and use quality management systems
- Use CNC machinery
- Understand properties of different materials and how they affect production processes
- Select and perform correct jointing technology, e.g. welding, brazing
- Install and configure programs for hardware and software components
- Basic mechatronics
- Basic PLCs

Learn Methodology Topics as the Advance Manufacturing Technician, ICATT Apprentice:

- Work systematically (Plan-Do-Check-Act)
- Analyze problems for effective troubleshooting
- Understand the importance of correct documentation
- Work safely, understand appropriate precautions and use PPE correctly
- Estimate manufacturing costs based on machine cost, material costs and labor costs
- Communicate effectively

Requirements:

- Apprentices must be accepted into the applicable college program, via a college placement exam.
